Dear Lin Zhen-Man,

Thank you for your response. Please note that your report has been entered into ICANN's database. For reference your case number is: 01011578.

Please note that due to the high volume of complaints ICANN Contractual Compliance may experience delays in responding to complaints . We truly appreciate your patience and understanding.

According to the current Whois records, your information is listed for the Registrant of the reported domain name. Additionally, as previously noted, ICANN does not have contractual authority to address any customer-service related matters (e.g. changing or updating DNS settings, registrar's response turnaround time) that fall outside of the RAA, RA and ICANN's Consensus Policies. Further, please note that ICANN has no authority to compel registrars to take specific actions with regard to domain names.

Accordingly, ICANN will follow up with the registrar Network Solutions, LLC regarding your transfer request per process and approach available at <http://www.icann.org/en/resources/compliance/approach-processes> ; provide you an update with its findings.

Sincerely,

ICANN Contractual Compliance

Dear Lin Zhen-Man,

Thank you for submitting a complaint to ICANN.

ICANN notes that currently the reported domain name ycec.com appears to be active and resolves to the intended website.

Additionally, please note that ICANN's authority is purely contractual, and limited to the Registrar Accreditation Agreement (RAA) (see <https://www.icann.org/resources/pages/registrars/registrars-en>), the Registry Agreements (RA) (see <http://www.icann.org/en/about/agreements/registries>), and ICANN's Consensus Policies. ICANN does not have contractual authority to address any customer-service related matters (e.g. changing or updating DNS settings) that fall outside of the RAA, RA and ICANN's Consensus Policies. Further, please note that ICANN has no authority to compel registrars to take specific actions with regard to domain names.

However, if you have reasons to believe that an ICANN-accredited registrar failed to comply with its obligations under the RAA or ICANN's consensus policies, please provide ICANN the following before 8 Mar 2021:

1. Please provide a detailed explanation regarding the alleged violation, including supporting evidence.
2. Please provide copies of any and all communications you have had with the registrar (and reseller, if applicable) regarding the alleged violation, so that ICANN can determine whether your concerns can be addressed under the Registrar Accreditation Agreement (RAA) and ICANN's Consensus Policies.

Please send the information and records requested above via reply email (no more than 20 MB total) and do not change the email subject heading. Please provide any records as attachments in .CSV, .PDF, .DOC(X), .XLS, .XLS(X) or .TXT formats.

If we do not hear from you by 8 Mar 2021, ICANN Contractual Compliance will close this case.

Sincerely,
