Respectable  
Director of Health  
Chen Hon-ye  
Dear Madam:

Regarding the flu vaccine with harmful young people that subject, since on May 09, 2016, May 19, 2016, June 22, 2016 with Aug. 15, 2016 I had four time facsimiled to you the outcome is: Not find the **Ko Wing-man** of Secretary for Food and Health still at TV to trick citizen to shot flu vaccine, until on the Sep. 18, 2016 as right of the **Ko Wing-man** only can see return TV about the shoot vaccine at school: "...all HK only had more twenty school to wish, but still to see have how many doctor too like! ...!"

As seen from the above, **Ko Wing-man** maybe guilt so talk frivolously but it seems to be compelled to come on the stage?! But in the end he is forced to represent the "government" state by he it only the key of question!

But after four days on Sep. 23, 2016, then they fool means by **flu vaccine** to blocked after, and even more not any science normal of **cervical carcinoma vaccine** also take out trick for girls with female students to come on the stage...it as I said in the letter to [director-general of the Family Planning Association](#) of HK on Sep. 24, 2016, you still could to hold the "Community Care Fund" appear in public attempt to add the glamour of trick, so in the dark to control that for the "government-behalf" extraordinary means it just as expected!

When above the letter to Family Planning Association also same time facsimile for "Community Care Fund" on Sep. 24, 2016 four days after, as right picture cut on TV of Sep. 28, 2016, the **Law Chi-kwong** of "Community Care Fund" at once announced to canceled the allowance for N-no (no relation to Government) all person, but why still to retain allowance for all girls with female students to shoot the **cervical cancer vaccine** that fool means?

See the right picture, **Law Chi-kwong** the fierce looks to bristle with anger could to show, whether to cancel the N-no allowance for people with resist for the "government-behalf" then to inform who presently also can a

quire to cut allowance for the **cervical cancer vaccine**? **Whether** this is true well wishes but I can not to known temporarily! 📧

But that come behind is on the Sep. 29-30, 2016 two days, to popularized the "**measles vaccine**" start to come on the stage on pm6-6:30 at **TVB** jade!

But to avoid chasing and evidence by me, in the website of Department of Health that has not found the report, and not found at news.tvb.com too, after many times to tracing only by the **TVB** News an email to tell me to hide in the program album of **TVB**!

As top of right picture, from the relive old news by **TVB** on Sep. 29, 2016 that already can to witness, since July of 1997year to return "host country" after, by trick to shoot the reinforce dose of **measles vaccine** for name but actually to fool all new generation of Hong Kong people that vicious palace means began! 📧

See the bottom right picture, from the relive old news by TVB on Sep. 30, 2016 that be bound to undoubtedly again as in the dark above the "government-behalf" to designedly mediate **TVB** not leading by Department of Health to privately publicize for cheat public, even more though the WHO just before ten days to announce "confirmed in HK already break off the **measles virus** in the HK local disseminate!", due to the toxic unhelpful "flu vaccine" that real situation already to fail and

be exposed so difficult further employ in HK after, again take out more not any science normal of *cervical cancer vaccine* also self-know in the wrong position, so the palace murderous scheme of CP China in HK agent in later to **suppose** if to take out the Director of Health at 1997 of the *Margaret Chan Fung Fu-chun* this fool woman to TV that only can to lay murderous hands for speed up to fool all new generation of HK people!

Lastly, than obscurantism vicious means in the end have no doubt from *Ko Wing-man* mouth who are the “government-behalf” it seems only he or *TVB* news department have the opportunity to know the about;

麻疹疫苗加強劑注射運動 (2) 2019-09-26 22:29

Clearly, according to your Health Department website of the "**measles, mumps and rubella vaccine**" introduced is by "respiratory droplets" to Spreading “measles virus” that really so terrible it? As follows:

First, from your official website for the “*measles virus*” infection symptoms of the description refers to the infect patient of the **respiratory tract** will first inflamed and cough, followed only can extending to the surface to lead to the skin erythematic and will include eye conjunctiva irritation too, the complications include **otitis**, pneumonia, bronchitis and encephalitis etc. that could be to ignore temporarily, namely on your official website has been establish that “*measles*” is the human body surface skin to contaminated *spatters* infection by *bacterial* rotting flesh undoubtedly!

Second, is it possible that 19years or older adults them would not need to shoot “*vaccine*”? Just because adults for the droplets of “*measles virus*” have natural immunity? And then, why your Department of Health can to publicized choose only for below 18age of young people must to shoot the *measles vaccine* on July-November of 1997? Therefore, 🗨️ you prepared to fool all new generation of Hong Kong people to lay murderous hands of feudal emperors fools vicious means first thus revealed surely in here! And the *Chan Fung Fu-chun* whether a fool woman or to be fully aware but who must to hold the office prefer to agent a murderer for all Hong Kong people? Therefore, *Margaret Chan Fung Fu-chun* who must be a clear explanation too! 🗨️

Third, since the dawn of China history, the *measles* of many at chicken excrement with dog's droppings everywhere of sanitation not good just without family to look after, and habit to **suck finger** crawl at ground that child countryside only can to infect occur! But the sanitary conditions of Hong Kong undoubtedly not as this, so even can to self-love of adults will be infected that very rare, this condition in your Department of health files consequential as too, yes? Also as this to shown, could it be said that all from kindergarten up to 18age young people still to stay at habit to **suck finger** with crawl on the ground that phase so must to accept your “*measles vaccine*”? If not as this, you're Department of Health which should be self-defense of it!

Seen from the above, if you again carried out the “*measles vaccine*” or “*cervical cancer vaccine*” to poison for next generation Hong Kong people that means shall more dirty shameless than the *flu vaccine*, you don't bumptious to assume all that produce for Germany to have nothing with CP China, it would be make a glaring mistake!

On account of the current two large Empire-Dynasty of East and West them “with fishing with pot” already, so all below 18age of American must to shoot “vaccine” total already to exceed 39 injection same the CP China, as in [www.ycec.com/UN/160903.htm](http://www.ycec.com/UN/160903.htm) that in my email visible, American wife also to boil with rage: “My child my choice”!

Therefore, we must be the first concern of our young generation is not again to designedly fools, if not, again give one hundred of “HK people ruling HK” also nuisance ghost with ! 🗨️

Very pleased to see that at 6:40pm TV news of last night to shown that

had a call for citizen not to shot the *influenza vaccine* of summer, although a small excuse to say because the *vaccine* already to be overdue half of one year, so I saw your Department and *Ko Wing-man* has to stand the starting point of results!

But above mentioned began 97 years by three booster needles of “*measles vaccine*” only deliberate to fool that 1.2million of 1-18age young people of HK up today equal between 21-38years old already, no wonder I saw in the subway all the way to see, from the mostly to wear a sad face with retain a childish heart that eyesight let me to sense the evil consequences by designedly to shoot *vaccine* that ill effects so to be terror-stricken...;

No wonder in Hong Kong, ladies of marriageable age has passed already exceeded million as seen in the earlier reports, and there have to start an enterprise of young people rare too! More as at the 《[Jinling Tower inscription](#)》 of China an ancient genius [LIU Bo-wen](#) to prediction, today in Hong Kong: “*flourishing city, become a vast ocean; great mansions, become a mud hill also;*” and “*creation alike to rob, insect ant too disaster.*” 📖

If our young generation are mostly wise, not have the “HK people administering HK” that will also be nothing to fear, which is to placed front of us together can not shirk that grim history of responsibility! 📖

That is placed in front of the Department of Health is no longer being used by [vaccine](#) deliberate moron of our people of Hong Kong that have no any worries to make an issue of!

At present, how to heal some occasional “[measles](#)” infection? Or cause cervical cancer and other malignant diseases to stay away from? On the day before yesterday, I especially for this to called for you a telephone operator Miss Zhao, and to inform the great use of “[saturated brine](#)” in home the health hygiene: 📖

1. When the occasional as “[measles](#)” infected children whose **respiratory tract** inflammation to red and swelling that inevitably, but if only to pat the small buttocks and wait for to cry open mouth to see the small throat and then to spurt by the “[saturated brine](#)” if only one or two frequency of day for the **throat**, however, the irrigation scotch plastic bottle have 200ml can, but the spray nozzle must have two inches long and the gush-export no to exceed 30° radian for beneficial to near the respiratory tract of baby, and then, need not to be hospitalized, the red and swollen no find or gradually to fade in 2-3 days can also be seen!

📖 On account of “[measles](#)” that is a **half to occult blood and carrion germs** of the same clan, however because unique permeability of saline maybe no way to abscond as the “[measles](#)” etc. [germs](#), so any antibiotics or other now today those disinfectant to prove definitely inferior and no any a side effect!

2. The “[saturated brine](#)” still for a health care products to essential at home, once gynecological vulvae or male genital if have a little to infect itch or inflamed time that must at once to spurt, or clear-cut to sit a tray to soak about 5-10 minute only can to disappear completely for rare pathological changes to let include possible [cervical carcinoma](#) etc. to come to naught and maybe all the [vaccine](#) go to hell, so “**the doctor for life go away from me!**”! 📖

3. Third, since the “disease from the mouth” has early come to a conclusion since ancient times, and to see the [www.ycec.com/page.htm](#), as on Oct., 16, 19 97, when I stand my this website time, here had a thesis of 《**On the influence of oral hygiene on the human life On the influence of oral hygiene on the human life**》 to urgent on the drafting of publishing ... , but now the medical profession only in the so-called “x expert or x branded elixir of in pay the vortex” spin as today’s [vaccine](#) shame, but few people to concerned about the mouth smelly fluid on every day of sleep after for liver detoxification function of the security key importance :

📖 That is on account of clean one's teeth also difficult thoroughly for **mouth cavity**, because after to sleep, in air those germs at once in to **mouth cavity** to breed poison that even if have not tooth old man the same can not to well out of well out of!

Therefore, after waking up, those smelly liquid everyone cannot to deglutition, otherwise, it despite the short-term nothing but will start the trouble to liver detoxification function can't to stop over, as this, the detoxify only for the liver that function to speed up to fail inevitably, so the life-span to shorten undoubtedly! 📖

And although the **smelly oral liquid** also has spit out after sleep, but entered the mouth again to the throat connecting the respiratory tract those **germs** with the **breed toxins** to have no way of doing by clean one's teeth without anybody not to know, **this only is modern interpretation of “disease from the mouth” no remote antiquity to have a smattering of knowledge!** 📖

As a result, “[saturated brine](#)” in here again can come to handy! In addition to the action of self-control is difficult old man or a small child must to assist by other people to spray, an ordinary people only must by (around 4ml) “[saturated brine](#)” or in about half of a soda pop bottle cover aim at the nasopharyngeal between throat to splash into that only can come to the best of disinfect effect, which only can to ensure the body that detoxify function no to fail after to hundred ill no to occur and then could be to exceed hundred age for **the highest state of doctor to removed from me!** 📖

Seen from the above, as long as your Department of Health stick application PFCO<sup>3</sup> wash lung for citizen to guard the life entrance at all hospital, still must to extensively teaching citizen to use the “*saturated brine*” to become a requirement health hygiene in home, and first must let all the *vaccine* go to hell, except, still must priority to let total 31 unit of mother-baby health hospital to teaching anyone new housewife with all old of nursing homes to skill comes from practice, in that case, all HK’s patient total to be hospital to reduce let the Health funds of HK government to be frugal upward 200 hundred million that is a trifle of case,  an average life span to surmount 120 age at Hong Kong not a question too! Furthermore, it is still more to harmony with let any citizen can to **Eugenics a new generation** I had other invention to popularize maybe matter of course, as for this only can to let young people of HK to grow in no poison that environment only can ensure intelligence to stand above all the others only can to rebuild prosperous of Hong Kong! 

This is primarily our Health Department’s duty and the *Ko Wing-man’s duty*, also to hope the *Law Chi-kwong* of “Community Care Fund” to see this letter after immediately by a knife to cut so-called *cervical carcinoma* (GARDASIL 9) *vaccine* lest for anyone a joke! Because this case much important to public, this letter facsimile to **Chief Secretary** for Administration with Chief Executive to see, if not clear welcome in all respects call for me at any time to discuss either by phone, fax or e-mail!

Regards!
