Dear

En.com.sg Team:

You are wrong again, at the www.sgnic.sg is also visible, from 『How do I check whether the name I intent to register is available for registration? 』, It also stated that you should add a domain name query after www.whois.com/whois/ to see if it is registered first?

And all .sg domain names the same must also be governed by ICANN regulations. Still more already been registered those domain don't need to be verify again. No matter how foolish a person all to understand, yes or not?

And from www.sgnic.sg/verifiedid%40sg.html that 『Why do you ask the administrative contact instead of the registrant itself to verify the identity of the registrant? 』 can to see, I this registrant is need not to be verified, unless you tell me in that www.sgnic.sg has a special web page that needs to be verified, or else you cannot ask me to find in www.sgnic.sg, yes or not?

### Please reply above this line ###

Dear ZhenMan Lin,

Thank you for getting back to us.

We are sorry that we do not understand the Chinese words sent.

We just tried to renew for you but it was rejected by SGNIC as the administrative contact has not verify the identity using SingPass.

If you have another contact which can be used to verify, please let us know the name, email address and NRIC so that we can update for you at the registry at the soonest so that you can verify for the renewal.

Best Regards,  
The Customer Care Team
