Directors of hospital or  
Whom it may concern:

Dear Sir/Madam,

I am sending to you an email from Singapore regarding our new invention - an easily manageable machine that combines PFC and Ozone together to treat lung diseases, in the medical field. As we have discovered earlier through experiments that ozone cannot be stored as medicine over a long period of time,

and thus we are promoting our machine instead of the ozone itself. Hence, clinics can have ready-made medicine on hand, when the crisis arrives. The new medicine can effectively cure any lung diseases of bacterial infectious origin with a success rate of up to 100% including treatments for diseases, such as tuberculosis (TB), bird flu and it is also suitable for clinical uses, such as treatments for lung related diseases, which includes asthma, clearing of the tar caused by smoking, and clean up the dirt in the lungs found among the elderly. The inaugural treatment, popularly known as “washing lungs room” has already gained popularity in China which can be found on the website [www.ycec.net](http://www.ycec.net). Therefore, we sincerely hope that such treatment will also be popularised in the West so that the medical advancement can be on par.

I have already applied for the patent in the UK and other countries and should you be interested to acquire regarding the machine, I will waive off the patent fee for you, which you will have to pay subsequently when it is approved. I have attached a photo of the machine and a quick reference about it which can also be found on our website at [www.ycec.net](http://www.ycec.net).
