Dear,

Until yesterday, according to the newspaper there are total 1262 case of H1N1 **arisen in New York and the dead case were total 38. This is** a disastrous effect, it obviously with our above mentioned application of “washing-lung” medical treatment have yet to ratify are related. Oppositely, the New Zealand patent office already approved this application to become a first civilization power country of west camps and to leave behind a good reputation in the annals of history. Please see attachment one.

Therefore, for to save life, please admit the received day of my respond document for your Advisory Action which facsimile on June 30, 2009 and as quickly as possible to approved this application, it could be to set into action for US CDC to make public use above the medical treatment of “washing-lung” to save life. The record of facsimile is below:
